

Oliver Sanderson

Full-Stack Software Developer

A full-stack software developer with a degree in computer science and experience working with React and JavaScript. Having recently completed the full-stack developer bootcamp with 4Geeks academy, I am seeking employment in a full-time position related to my skillset.

Experience

Next Flow - **Angular Developer** - (2022 - 2023)

- **Frontend Angular, JavaScript**
- A team of 4 outsourced developers. Worked on **over 20 projects** including **user interface** using **APIs** to connect to **Python backend**. Application to track eye and head movements for rehabilitation. Hotel booking and alert system.

Veiovia Ltd - **Junior Software Developer** - (2022)

- **Backend Python**
- Used python to **analyse large datasets** in relation to DNA sequencing in the backend.
- **Frontend React, JavaScript**
- Created React website for **web3** project. Importance on **scalability** and **cross device** usage.

Ministry of Defense - **Data Analyst** - (2019 - 2021)

- Analyse SQL
- Identify Risks

Ebuyer - **Product Supervisor / Technical Support Supervisor** - (2013 - 2019)

- HTML/CSS and JavaScript
- IT services

Projects

KorYoku - Productivity Tracker - (2023)

- **React** website using **JWT** for security. Backend created with **Python** and **SQLAlchemy**. **Chrome Extension** tracks tab activity with an **onActivated** listener **fetch API** passes this information to the backend.
You can view this project on my GitHub.
